

IN THE CLAIMS:

Please cancel claims 1-20 and rewrite them as claims 21-40 as follows:

21. A bactericidal, bacteriostatic and fungicidal composition, comprising two or more live *Trichoderma* species.

22. The composition according to claim 21, comprising two or more *Trichoderma* species, natural or genetically modified, original stumps of *Trichoderma* species and sub species from any natural or laboratory origin, live and active in any of its vegetative growth phases, mycelium spores, fractionated or in different proportions.

23. The composition according to claim 21, comprising two or more *Trichoderma* species selected from among *Trichoderma harzianum*, *viridae*, *polysporum*, *longibratum*, *koningii* and variations of these, obtained in laboratory, identified as T 22, Tr 115, Tr 116, KRL-AG 2 (Rifai), including holoforms as *Hypocrea* and *Podostroma*.

24. The composition according to claim 21, comprising three live *Trichoderma* species.

25. The composition according to claim 24, comprising three live *Trichoderma* species selected from stumps *Trichoderma viridae*, *Trichoderma longibratum* and *Trichoderma harziano*.

26. The composition according to claim 25, wherein the three live *Trichoderma* species are in the proportions: 10:20:70 or 99:05:05.

27. The composition according to claim 24, comprising the three live *Trichoderma* species and a vegetal extract of bacteriostatic bactericidal nature.

28. The composition according to claim 21, wherein the vegetal extract is a *Rubus* sp hydro alcoholic extract.

29. A composition based on latex for pruning cicatrizing paint, comprising a latex base, that can or cannot have the color added, and a composition according to claim 21.

30. The composition according to claim 29, comprising approximately 60 liters of said latex and 100 grams of said composition.

31. A method of use of the composition according to claim 21, wherein by applying it to plants, soils, seeds, trees and/or fruits protection is imparted against the damage of a pest of insects, bacteria, fungus, viruses, and/or a combination of two or more of these agents.

32. A method of use of the composition according to claim 31, wherein it is applied in the form of dry powder or in the form of an aqueous solution.

33. A method of use of the composition according to claim 32, wherein the application is made by means of the volley technique, in seed impregnation, directly on plants, incorporated to ferti-irrigation tanks, by means of back machines, pulverizing machines and electrostatic machines.

34. A method of use of the composition according to claim 33, wherein the applied dose is 1 kg per hectare, or 2 kg per hectare, per each 600 liters of water.

35. A method of use of the composition according to claim 21, wherein the composition serves as fungicidal bacteriostatic bactericidal of wide spectrum with action on fungus, and/or bacteria, that are responsible of fungal diseases and/or bacteriosis, when applied to human beings, and/or animals and/or foods.

36. A method of use of the composition according to claim 35, wherein the composition can be used in the preventive phase and/or the curative phase.

37. A preparation procedure of the composition according to claim 21, comprising the steps of an initial sowing over trays that contain the micro nutrient in a vegetal extract, with two or more *Trichoderma* species in the form of reproductive original units, and the harvesting of the biomass generated by mechanical means.

38. The preparation procedure according to claim 37, wherein the showing comprises three *Trichoderma* species in the form of reproductive original units.

39. The preparation procedure according to claim 38, wherein the three *Trichoderma* species are selected from the stumps of *Trichoderma viridae*, *Trichoderma longibratum* and *Trichoderma harziano*.

40. The preparation procedure according to claim 39, wherein the proportion of the three species is 50% *Trichoderma harziano*, 30% *Trichoderma viridae* and 20% *Trichoderma longibratum*.

IN THE ABSTRACT:

After the claims, please insert a page containing the Abstract Of The Disclosure, which is attached hereto as a separately typed page.
